Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-6, drawn to an image forming apparatus with a slanted front face and the bottom side of which recedes backward.

Group II, claim(s) 7-10, drawn to an image forming apparatus with a stripe-shaped dividing element.

Group III, claim(s) 11, drawn to an image forming apparatus with a release mechanism that releases the pressure provided to the paper stack.

Group IV, claim(s) 12-15, drawn to an image forming apparatus with a move mechanism that moves the paper feed tray in a direction opposite to the direction in which the paper is fed.

Group V, claim(s) 16, drawn to a paper discharge tray with a slope on which the paper is stacked.

Group VI, claim(s) 17-18, drawn to a paper discharge tray wherein side portions of the paper discharge tray in directions perpendicular to a direction in which the paper is discharged are lower than a middle portion.

Group VII, claim(s) 19-23, drawn to an image forming apparatus with a detachable transport cover provided on a rear side of the image forming apparatus.

Group VIII, claim(s) 24-27, drawn to an image forming apparatus with a recording liquid cartridge that is disposed on a front face of the image forming apparatus.

2. The inventions listed as Groups I, II, III, IV, V, VI, VII, and VIII do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2,

Art Unit: 2861

they lack the same or corresponding special technical features for the following reasons: The groups listed above are not within the permitted combination of different categories of inventions. That is eight apparatuses. As set forth in PCT/JP03/15439, there is no special technical feature that defines a contribution over the prior art. JP 2001-130093, EP 0534500, JP 06-198990, JP 2002-62705, JP 11-078159, JP 2001-312112, and JP 04-005894 have common technical features.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

Art Unit: 2861

remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joshua M. Dubnow whose telephone number is 571-270-1337. The examiner can normally be reached on Monday-Friday, 8:30-5:00.
